The Digital Library

A collection of instructional and professional learning resources by educators for educators.

The Digital Library contains nearly 3,000 resources aligned to college- and career-ready standards to help educators improve teaching and learning. **The library is collaborative and interactive**, allowing users to rate materials and share their expertise with other educators in online forums. Educators can use the Digital Library to find:

1. Instructional resources that include ideas, activities, and lessons that can be infused into classroom instruction,
2. Collections of Instructional Resources—called *Playlists*—that represent a progression in skills or understanding for a topic, and
3. Professional Learning resources that focus on topics for educator professional development.

Learn more from the [Digital Library fact sheet](#).

✕ What is Formative Assessment?

The Digital Library provides resources that support educators with **formative assessment**: a deliberate process teachers use during instruction to gain actionable feedback so that they can adjust their teaching strategies to improve students' attainment of curricular learning targets/goals.

- Learn more from our [Formative Assessment Process overview \(PDF\)](#)
- Check out this [Formative Assessment in Action](#) video series from the California Department of Education.
